

SHALL IT BE WAR.

From the tone of the dispatches it is evident that the Italian government proposes to make the New Orleans incident the cause of a war with the United States. While such an event is to be deplored, it is incumbent upon the United States to meet their proposition on a basis that will leave no reflection on the national honor or the national courage.

For many years the country has been made the catch basin of the spawn of the European penitentiaries, its asylums and its lazar-houses.

The wretches who were hung at New Orleans, belong to an organization of cut-throats and thugs, liberated from Italian prisons and sent to America.

These men ought to have been shot down like dogs the moment they landed in New Orleans, had had their real character been known.

They started a reign of terror in New Orleans. They preyed upon the rich and poor.

They became so bold and numerous that sometimes wealthy Italians in New Orleans were paying blackmail to three different associations at once.

They levy a systematic tax on every Italian vegetable and fruit peddler, and in return protect them from American competition.

If an American starts business in New Orleans in opposition to an Italian who is paying his monthly tribute to the Mafia, he receives a mysterious death—head and cross bones warning to quit, and does so at once; knowing perfectly well that if he does not, that his relatives will find him lying in a pool of blood some morning, with a knife thrust between his shoulder blades.

Now the Americans are a patient and long suffering people, and will stand more than anybody else—up to a certain point, after that, look out.

When this infamous Mafia society was transported to New Orleans and a systematic intimidation of American citizens began, the Italian Government should have been notified to recall these wretches, or stand the consequences.

It is now recalling its Ministers, but the country wants to see it recall its professional cut-throats, and be pretty quick about it.

There is a strong undercurrent of Americanism in the United States at the present time, and now is about as good a time as any to give vent to it, and we believe that a war with Italy on this issue would be followed by a complete shutting down of the gates of Castle Garden, and European immigration. We have enough Americans here to run this country and we might as well begin to impregnate Europe with the idea that we do not want its social and criminal refuse on any terms.

Keep Your Shirt On.

The people of Elko are agitating themselves unnecessarily about the proposed new road. They need not be alarmed. It will never be built and was never intended to be. It is the old game worked on a confiding legislature four years ago when some manipulations of the Great East, secured a franchise and sold it for \$55,000, to a line which wanted to keep out competition.

This will in all probability go the same way. If it does not, it will astonish the inhabitants of this State. In the future a law should be passed, that all roads taking a franchise, should deposit \$10,000 with the State as a guarantee of good faith. Then if they sold it, the commonwealth would get some of the swag.

The Journal speaks of a thoroughbred cross between a Holstein and Jersey. Such a product is not a thoroughbred, but if the parents are registered animals it is a pure blood.
